&
Wealth Management Roundtable, LLC

Present:

**Is Your Family and Business Ready for
Succession Planning?**

This month's roundtable presentation will focus on the nonlegal and nonfinancial aspects of succession planning. We have asked Jim Kwaiser of C.H.A.L.L.E.N.G.E.S. inc. to give this presentation. The goals of this program are two-fold: First to save you and your client's time and money by identifying those factors you must address before you meet with your attorney or financial planner; and second, to arm you with the knowledge that will allow you to effectively minimize the "crisis" issues that inevitably arise when addressing succession planning. This program is highly recommended and you can be guaranteed to take many useful items along with you after the program.
