ESTATE PLANNING

The Minto Law Group, LLC believes that estate planning is a process designed to improve the quality of life for your loved ones. Estate planning empowers you to control how your assets are used in the event of an illness as well as how your assets and legacy are to be passed onto future generations. Our firm's emphasis on expanded client counseling and education stands us apart. We thoroughly cover with you how your estate plan works and on what actions you need to take during your lifetime to assure that your estate plan performs in the manner you expect. Timely and diligent administration of your plan is as essential as the quality of the legal documents themselves. This commitment to full service requires a higher level of client support than provided by most firms. Whether you are planning to reduce estate taxes, avoid probate, protect a child's inheritance from divorce or creditors, it is critically important to manage the mechanics of your estate plan. Our estate plans are designed to succeed beyond what is common in today's marketplace. Beyond drafting the highest quality documents customized to your unique needs, our firm guides and supports you in the practical matters that make your estate plan work and preserve your legacy. Towards this end, we offer complete trust funding services that ensures that your assets not only are properly planned in the event of disability or death, but also that the assets, in fact, are transferred as you desire. Again, this service stands us apart from other firms that merely draft documents. Trust funding is one of, if not the most, critical element in successful estate plans. We also offer education and training to ensure that the loved ones you designate know what to do should they need to assist. Our trust settlement services help to ease administration at death for your loved ones, again, by ensuring your wishes are carried out according to your estate plan. Our philosophy emphasizes the most current estate planning documents, completely customized to the unique needs and circumstances of you and your loved ones. Beyond quality legal documents, we are committed to the mechanics that make your plan work. This administrative and educational emphasis helps to ensure that your estate planning goals are achieved.
