

Special Needs Planning

We understand the requirements of a special needs person with a physical or mental disability, or an individual with a chronic illness. We can create trusts for his or her benefit in unlimited amounts. A proper special needs trust allows a disabled person to receive gifts or other funds and not lose eligibility for certain government benefits, as those assets would not be considered for purposes of qualification. If the special needs trusts is sufficiently funded, it could pay for items like education, recreation and medical attention beyond the simple requirements that could not be paid for by public assistance funds.

At Minto Law Group we represent our clients in a caring and compassionate way to help them achieve their planning goals.
